

Ethernet cable

Mini Whole Home Wi-Fi discs

Power adapter for each disc
Item code 098659

What's in the box

Works with all broadband providers

Let's get started Mini Whole Home Wi-Fi

Safety instructions and care

- Your Mini Whole Home Wi-Fi from BT is manufactured to comply with European safety standards. Please read the following instructions carefully before installing and using it. Keep these instructions safe for future reference.
- For indoor use only in UK and Ireland.
- Position all parts, including power adapters, away from heat and sun (eg cupboards or behind sofas) and don't block any vents with objects or thick carpets.
- Keep cables out of young children's reach.
- Only use power adapter item code 098659, provided by BT for this specific device; contact the BT helpdesk if you need a replacement.
- Electronic devices hate liquids; don't place devices and power adapters in damp areas or near sources of water or splashes.
- Product may cause scratches or marks if placed on fragile surfaces (eg veneered wood or delicate fabrics); place on a mat if needed.
- Designed for use at room temperatures between 0 and 40°C.

- **Installation and location**
- If your devices or power adapters appear damaged, stop using them immediately; switch off your electrical socket if it's safe to do so and contact the BT helpdesk.
- See terms of the guarantee.
- Don't try to open your devices or power adapters. There are no serviceable parts and you risk an electrical shock.
- This device has been evaluated for and shown to be compliant with European guidelines when installed and operated with a minimum distance of 20cm between the unit and your body.
- **Warnings**
- If your devices or power adapters appear damaged, stop using them immediately; switch off your electrical socket if it's safe to do so and contact the BT helpdesk.
- Regularly check that objects don't cover any parts or any vents that could cause overheating.
- Dust with a soft dry cloth; don't use water or solvent.
- Care and maintenance

The Government has a legal requirement to minimise the unsorted waste disposal of electrical and electronic equipment and to maximise its separate collection and environmentally sound management. The symbol shown above and on a product, means you shouldn't throw it in your normal rubbish at the end of its working life.

Disposing of your old electrical and electronic equipment

We're not responsible for the costs of returning items. If you don't wish to return returning items, lots of electronics shops have their own take back schemes where you can recycle very small electrical and electronic goods. If you're a household user, you can also take it to your local recycling centre – go to recyclenow.com to find the one nearest to you. Please dispose of this carefully and help to protect our planet.

This product may contain substances that could be harmful to people or the environment if it's not recycled correctly. Check with your retailer to find out how to recycle your old equipment, or if you've bought something from us that has the crossed out wheellie bin symbol on it and it's similar to the kit you don't need any more, you can send us your old kit and we'll get rid of it in an environmentally friendly way. Here's the address:
WEEE Take Back Scheme, BT Returns, BT DF, Darlington Road, Northallerton, DL6 7ZY.

5.15–5.35	200mW

- **Guarantee**
- Your Mini Whole Home Wi-Fi is guaranteed for two years from when you bought it. This means we'll either repair it or replace all or part of the product if it isn't working properly. If you bought the product more than 28 days ago, we might replace it with a refurbished or repaired one.
- Guarantee conditions:
- the guarantee only covers problems found in the 2-year guarantee period
- you'll need your receipt or other proof of purchase
- your product is returned to BT or one of our partners as instructed
- this guarantee doesn't cover any problems caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than through approved agents
- this guarantee doesn't affect your statutory rights.

Power consumption (per disc)	Disc status	Watts

Mini WHW 1.0

Let's set up your discs

Important: please don't switch on your new discs until the app says you can.

1 Download the free app

Open your phone/tablet's browser and go to bt.com/WHW/app

What does it work with?

iOS 9 and above and Android™ 5.0 and above.

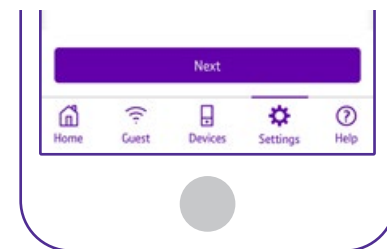

2 Open the app

Tap **Get Started** and follow the steps on the app to plug in your first disc and connect to its wi-fi.

3 Add next disc

After you've connected to your first disc, the app will show you how to install the other disc(s) and all the settings for your new Mini Whole Home Wi-Fi network.

4 Finish up

To make sure your devices always connect to your new Mini Whole Home Wi-Fi network, follow the steps on the app to forget your old network.

Setting up more than one Mini Whole Home Wi-Fi multipack?

To install them on the same network, set up the first pack as shown here. Then to add the discs in the next pack, open the Mini Whole Home app, tap **Settings** then **Add another disc**.

Where's best?

Follow your app's location checker to find the best place for your disc(s).

Make sure they aren't:

- covered or in a confined space – the vents on your discs should always be clear from anything that might block them
- on soft furnishings, carpets or delicate surfaces.

Here are some examples of how you might place the discs:

For extra coverage, you can buy more Mini Whole Home Wi-Fi Add-on discs at bt.com/shop. Only **Mini** Add-on discs will work with the discs in this box.

What your disc lights mean

If your disc isn't showing a steady blue light, it might need a bit of help.

<p>Blue</p>	<p>The disc is connected and working okay</p> <p>If you can't get online, there might be a problem with your computer, tablet or mobile device</p>	<p>Slow flashing blue (every two seconds)</p>	<p>The disc is in WPS mode</p> <p>Press the WPS button on the device you want to connect</p>
<p>Fast flashing blue (every half second)</p>	<p>The disc is connecting to the Whole Home network</p> <p>Wait about 15 seconds</p>	<p>Flashing green</p>	<p>The new disc is syncing</p> <p>The light should change to blue after about a minute</p>
<p>Purple</p>	<p>The disc is starting up</p> <p>Wait a minute for it to turn blue</p>	<p>Flashing purple</p>	<p>The disc is updating itself</p> <p>Don't turn it off while it's doing this. Updating takes a couple of minutes</p>
<p>Orange</p>	<p>The disc is okay but could be closer to others</p> <p>Try moving it nearer to one of your other discs</p>	<p>Red</p>	<p>There's a problem somewhere</p> <p>Check the Ethernet connection with your hub. If needed, restart the disc (switch off then on). If the light's still red, try moving it nearer to one of your other discs</p>

Need to reset a disc?

Use a pin or paper clip to press the **Factory reset** button on the back of the disc for about one second.
